DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 12-28, drawn to a microscope having two polarization systems disposed in specific manner with respect to a specimen, classified in class 359, subclass 386.
 - II. Claims 29-43, drawn to a microscope having two light sources system disposed in a specific manner with respect to a specimen, classified in class 359, subclass 385. It is noted that while claim 31 discloses a polarization system; however, the claim does not provide specific features for the polarization system as the invention of the group I.
2. The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility for use in a microscope for polarizing illuminating light without the use of an additional light source as defined in the invention II, and the invention II has separate utility for use with a microscope having two light sources without the use of specific polarization systems as defined in the invention I. See MPEP § 806.05(d).
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, and different searches, restriction for examination purposes as indicated is proper.

4. A telephone call was made to George L. Snyder on 11/20/2001 to request an oral election to the above restriction requirement, but did not result in an election being made.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Thong Q. Nguyen whose telephone number is 703 308 4814. The examiner can normally be reached on M-F.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Cassandra Spyrou can be reached on 703 308 1687. The fax phone numbers for the organization where this application or proceeding is assigned are 703 308 7724 for regular communications and 703 308 7724 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703 308 0956.
